 Welcome to the Singapore Pavillion

Singapore's aerospace industry has staged a successful recovery as the world moves on from the effects of the COVID-19 pandemic. The industry crossed 2019 levels of output in the middle of 2022 and, as of July 2023, has exceeded them by more than 25% (EDB, July 2023). The outlook remains positive as aviation continues on its recovery path globally and demand for MRO services remains buoyant.

At MRO Asia Pacific 2023, aviation and aerospace companies can look forward to invaluable insights, new business contacts and fresh opportunities. We are proud to present a sampling of Singapore's MRO capabilities at the Singapore Pavilion and we invite you to explore possibilities with us!

Sia Kheng Yok
Chief Executive
Association of Aerospace Industries (Singapore)

Co-ordinated by:

Supported by:

ASSOCIATION OF AEROSPACE INDUSTRIES (SINGAPORE)

The Association of Aerospace Industries (Singapore) or AAIS, is a not-for-profit organisation established in 2003 to promote the development of Singapore as a leading aerospace hub. Its vision is "An Innovative Aerospace Community for a Sustainable Future."

AAIS represents companies involved in aviation, aerospace and unmanned aircraft systems, including maintenance, repair and overhaul(MRO), manufacturing, parts distribution, R&D, training and education, and others. It serves as the voice of industry, facilitates business and engenders the aerospace community.

Visit www.aaiss.org.sg for more information.

ENTERPRISE SINGAPORE

Enterprise Singapore is the government agency championing enterprise development. It also supports the growth of Singapore as a hub for global trading and startups with a robust pro-enterprise environment.

The agency builds trust in Singapore's products and services through quality and standards. Renowned for their dedication to quality and innovation, Singapore companies make ideal business partners.

With its global network in over 35 locations spanning many developed and emerging markets, Enterprise Singapore connects businesses with relevant Singapore companies for their business expansion.

Visit www.enterprisesg.gov.sg for more information.

ACME MANUFACTURING COMPANY PTE LTD

Acme Manufacturing is the world leader in adaptive robotic material removal automation for the aerospace industry. Acme provides state-of-the-art turnkey robotic systems for new parts and MRO processes including MRO blade tip repair (HPT and HPC), LPT blade polish, vane polishing, blending, deburring, leading-edge profiling, composite material trimming, and additive manufacturing post-processes. Located within the Seletar Aerospace Park, Acme offers a customer innovation center with robotic cells for R&D dedicated to the aerospace industry for robotic material removal process development.

Areas of Expertise:

- Robotic Material Removal
- Robotic Finishing Process Development

Certifications:

- ISO 9001:2015
- A3 Certified Robotic Integrator
- FANUC Level IV Robotic Integrator
- ITAR Registered
